### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Bunyan on 20 June 2007.

The application has been amended as follows:

**Claims 22-31 are cancelled.**

### ***Reasons for Allowance***

2. Claims 1-8 and 10-18 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the method as claimed by applicant.

US 4,402,681 to Haas et al discloses a shunt and method for implantation that creates a passageway between the posterior chamber of the eye and the outside of the eye, but does not disclose creating a passageway in the lamina cribosa, creating a passageway by forming an opening in the pars plana, or placing an implant adjacent to the lamina cribosa, such that fluid may drain into the subarachnoid space, as claimed by applicant. Haas also does not disclose or suggest the step of liquefaction of the vitreous humor in conjunction with the draining operation.

US 6,863,073 to D'Amico et al discloses the step of creating an opening in the lamina cribosa to treat central retinal vein occlusion, but does not disclose or suggest any method for draining fluid from the eye. D'Amico also does not disclose or suggest the step of liquefaction of the vitreous humor in conjunction with any draining operation.

Since the steps claimed by applicant are neither known nor suggested by the prior art, a simple combination of the disclosures of the cited art would not yield any predictable results. Accordingly, the instantly claimed invention is patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
